

Easy-Out Perforating Shafts

Dramatically reduce setup time when tooling changes are required.

ROSBACK

Rosback has been providing world class perforating, creasing, and slitting solutions since 1881. The True-Line and 240XL Series Perforators provide quality, cost-effective perforating and creasing solutions that presses or folders cannot match. No wonder thousands of demanding print finishers ask for ROSBACK.

Now add the Easy-Out Perforating Shafts to your ROSBACK perforator.

With these Easy-Out Shafts, you no longer need to remove hand wheels or disrupt any gearing. These shafts easily separate and quickly re-engage.

The Easy-Out Shafts will immediately boost your production and... *increase your profit margin.*

ADVANTAGES:

- Dramatically reduce setup time when a tooling change is required.
- Retro-Fits all Rosback 220 & 240 Series Perforating machines.

The Easy-Out Perforating Shafts are a perfect option on all new Rosback 220 & 240 Series Perforators. These shafts are also adaptable for machines in the field. Contact Rosback or your local dealer to get the proper retro-fit kit for your perforator.

QUICK & EASY SETUP:

- Simply loosen four setscrews.
- Pull shafts out a few inches.
- Re-tool your machine.
- Slide shafts back into place.
- Re-lock the four setscrews.

OTHER ACCESSORIES FOR ROSBACK PERFORATORS:

- TrueScore System. Eliminates cracking on all sensitive and delicate materials.
- Slot-Cut Heads. Produce a clean, highly visible and attractive line of perforation in 3 to 12 tpi.
- Knife-Cut Heads. Produce a clean, nearly invisible line of perforation in 3 to 12 tpi.
- Micro-Perf Heads. Very popular for refeeding printers. Produce a flat, strong perforation that leaves an exceptionally clean edge after separation. Available in 54 or 72 tpi.
- Slitting Heads. Cut multiple forms apart while you crease and slit.
- Scoring Heads. Many varieties in stock. Ask us if you have special needs.
- "CD" Inlay Heads. Produce finished CD inlay cards in single or multiple formats.
- Gutter Slit/Perf Heads. Slit apart multiple format jobs while ejecting the scrap strip away from the finished pieces.
- Pressure-Sensitive Slitting Attachment. Backslit or semi-slit labels and decals.
- Narrow Margin Perf Heads (3/8" From Sheet Edge)
- Special Slot-Perf Heads (1/2" Between Perf Lines)
- Special Engineered Heads. Let us know your needs. We have probably done it before and can produce your special application head quickly, saving you time and money.
- Quick-Alignment Perforating Head

Loosen these two collars and two setscrews on LH side.

Pull shafts out a few inches and re-tool your machine.
