

ROSBACK

A COMPLETE SELECTION OF BINDERY EQUIPMENT

Saddlebinding

RELIANT 318 Saddle Binder

Totally automatic system for 6-pocket or 12-pocket feeding, stitching and 3-knife trimming multiple signature booklets from 8 pages to approximately 120 pages and from 3-1/8 x 5-13/16 to 11-1/2 x 15 at variable speed ranges from 1800 to 5000 cph. Continuous-loading 318 changes over in 30 minutes and averages a production rate of 4200 per hour (32,000 in an 8 hour day). Stitch tech option inspects books, shunts aside any missing a signature, and continues stitching.

Lynx Saddle Binder

The Lynx 4 or 8-pocket Saddle Binder automatically and productively collates, saddle stitches, and 3-side trims delivering professionally finished books at production speeds. Lynx 724 is a heavy duty all ball bearing 4-pocket feeder that handles individual signatures or pre-inserted signatures. The stations can be loaded on-the-run and hold approximately 8-9 of stock. You can buy 4 pockets now and add 4 later in this space saving tower format.

Collating

Affordable, reliable systems feed a variety of materials. **COL-TEC COLLATOR** This system handles 4" x 5" to 40" x 30" sheets of one-time carbon to vinyl floor tile in three to 35 stations. Custom special application collators are available. Optional equipment includes finishing, numbering and gluing, and all necessary interfaces to conveyors, binding, film wrapping, etc.

Perforating

True Line Series, Vacuum & Friction

18", 20" and 26" and tandem shaft models designed for accuracy and high production on perforating, micro-perfing, scoring and slitting of material weights from 9# onion skin to 1/16" thick cover stock. Special CD, gutter cut and other custom heads available.

SR & SRX True Line Series

20" and 26" (all vacuum feed) models can do everything the smaller True Line Perforators plus the added benefit of a side registration system that includes micrometer dial for angular adjustments and positioning.

All SRX Perforators have standard total system monitoring with total and batch counting and can add an optional Double Sheet Detector. The 223SRX & 226SRX has the ability to attach the Cobra 4x4 Strike Perforating System.

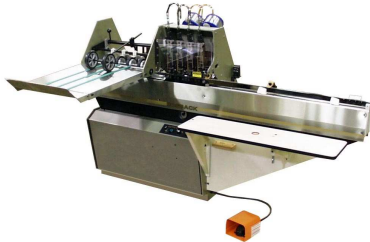

240XL Series Perforator/Scorer/Slitter

Perforate, slit, score and crease even the most difficult stocks without putting holes in your profitability. Accurate, consistent registration produces up to 25,000 sheets per hour and adapts to most folders for score & fold applications... Vacuum feeder won't mark stock. Two speed, motorized, 30" x 30" feed table. Right Angle Model for 2-directional perf, score and slit. A Dual Shaft model is available for difficult score-on-score production. All models come standard with Total & Batch System monitoring and Double Sheet Detection. Also has the ability to attach the Cobra 4x4 Strike Perforating System.

Saddle Stitching**201 Auto Stitcher**

Automatic saddle stitcher that's economical for big or small volume. Handles books or pamphlets up to 3/8" thick at operating speeds of 1800 to 5000 per hour.

**Trimming****250CB & 318SA Trimmers**

Heavy duty 3-knife trimming can go in-line with other equipment or free standing. Trims materials up to 5000 cph.

**Adhesive Binding****Rigó Perfect Binder Series**

Automatic 420 with cover scoring and a full range of professional binders.

**Drilling****370/371 Drills**

The 370/371 Drills are fast, accurate & efficient. Drill 2 inches of stock in a single stroke in drill sizes ranging from 1/8 to 1/2 inch hole diameters.

**In-Line Trimming Solutions**

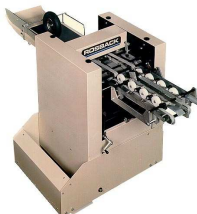

The 318SA & 252 Interface are equipped with heavy-duty 3-knife trimming. Can be free-standing or go in-line with other equipment like tower collators. Trims materials up to 3/8 inch thick at speeds up to 5000 cph.

**860 DigiBinder/Padder**

Produces up to 360 cph from 4 sheets up to 2 inches thick and up to 12.5 inches long.

**Punching****Rosback 958 AutoPunch**

No more separate trips... to off-line drilling. Just roll the 958 Punch up to the delivery end of most folders, collators, saddle binders, trimmers and finishing equipment even machines with angular deliveries. Optional calendar punch available.

**953 ProFeeder**

A self powered single pocket feeder that feeds saddle stitched signatures, glued booklets, or single sheets into other equipment up to 65,000 cph. Pictured with Rosback 3-knife trim.

**882 Perfect Binder**

Up to 600 cph with milling, quickly adjusts from 4x2.5 inches to 15.5-12 inches & up to 2 inches thick. Add an 887 cover feeder for one operator.

**Material Handling****Utility Stock Trucks**

Four models available to move or store up to 800 lbs. of stock materials. They are sent in kit form to reduce shipping costs.
