

ROSBACK COMPANY

TrueLine Series Model **218 *Bobcat***

High Speed System for Perforating, Scoring, and Slitting

- Heavy Duty Tabletop Construction
- Accurate and Dependable
- Fast Setup and Low Maintenance

Use with the **TrueScore-Pro** Heads to Create a Perfect
Tabletop Crack Free Scoring System

IDEAL FOR DIGITALLY
PRINTED STOCK

Performance & Finishing Features

Designed for runs of hundreds and thousands... built for thousands of runs.

Rosback has been providing world class perforating, scoring, and slitting solutions since 1881.

Where space is at a premium, consider the Model 218 True Line Tabletop Perforator. Built with the structural integrity and performance capabilities that are synonymous with the name "TrueLine". Get the accuracy and performance you demand in a table top format.

Enjoy a wide variety of uses including Slot, Knife-Cut and Micro Perforation, Slitting, and Scoring. Get precision results on stocks ranging from 9-lb. onionskin to 1/16" board. Rosback TrueLines are well known for simplicity of use and years of trouble free operation.

Add the patent pending **TrueScore-Pro** for crack free scoring on the most difficult materials, including digitally printed stock.
