True-Line SR Series

Split-Creasing Heads

ROSBACK

Rosback has been providing world class perforating, creasing, and slitting solutions since 1881. The True-Line and 240XL series perforators provide quality, cost-effective perforating and creasing solutions that presses or folders cannot match. No wonder thousands of demanding print finishers ask for ROSBACK

Now add the Split Creasing Heads to your ROSBACK perforator/creaser. Quickly and easily add, remove, or relocate creasing heads anywhere along the cutter shafts. The Split Creasing Heads will dramatically reduce setup time. Even inexperienced operators will enjoy quick setup and perfect results.

EASY SETUP & OPERATION:

- Determine lower creasing head location for job and lock into position.
- Fold a sheet of stock in half.
- Raise pitch control lever.
- Position upper head so that the creasing-edge is centered over the selected lower head groove. Place the folded stock between the heads. Lower the upper head slowly with the pitch control lever. At the same time, manually rotate the upper shaft with the hand-wheel. This will automatically align upper head in center of groove. Fasten upper creasing head setscrew while the stock is between the upper and lower heads.
- Set desired creasing depth with the pitch control lever.

Split Creasing Head

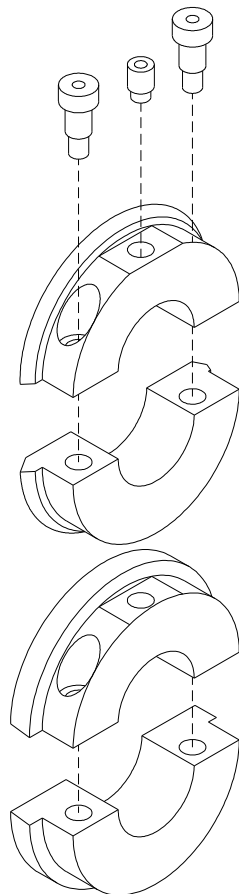

STANDARD EQUIPMENT:

- 1 – 220-353 Upper Male Head
- 1 – 220-354 Lower Female Head
- 4 - S-2634 Shoulder Screw
- 2 - S-0857 Setscrew

220-A-161 Complete Package

OTHER AVAILABLE ACCESSORIES FOR ROSBACK PERFORATORS:

- TrueScore System. Eliminates cracking on all sensitive and delicate materials.
- Slot-Cut Heads. Produce a clean, highly visible and attractive line of perforation in 3 to 12 tpi.
- Knife-Cut Heads. Produce a clean, nearly invisible line of perforation in 3 to 12 tpi.
- Micro-Perf Heads. Very popular for refeeding printers. Produce a flat, strong perforation that leaves an exceptionally clean edge after separation. Available in 54 or 72 tpi.
- Slitting Heads. Cut multiple forms apart while you crease and slit.
- Scoring Heads. Many varieties in stock. Ask us if you have special needs.
- "CD" Inlay Heads. Produce finished CD inlay cards in single or multiple formats.
- Gutter Slit/Perf Heads. Slit apart multiple format jobs while ejecting the scrap strip away from the finished pieces.
- Pressure-Sensitive Slitting Attachment. Backslit or semi-slit labels and decals.
- Narrow Margin Perf Heads (3/8" From Sheet Edge)
- Special Slot-Perf Heads (1/2" Between Perf Lines)
- Special Engineered Heads. Let us know your needs. We have probably done it before and can produce your special application head quickly, saving you time and money.
